Acog Guidelines For Pap 2013

What is cervical cancer screening? Cervical cancer screening is used to find changes in the cells of the cervix that could lead to cancer. The cervix is the opening to the uterus and is located at the top of the vagina. Screening includes cervical cytology (also called the Pap test or Pap smear) and ...

Cervical Cancer Screening | ACOG

Repeat Pap test or co-test—A repeat Pap test or a repeat co-test (Pap test and a test for high-risk types of HPV) is recommended as a follow-up to some abnormal test results. These repeat tests may be done in 1 year or in 3 years depending on your initial test result, your age, and the results of previous tests.

Management Guidelines - ASCCP

New 2013 Pap Smear Recommendations. The American College of Obstetricians and Gynecologists (ACOG) recently came out with new Pap smear guidelines. Women should have their first screening Pap smear at age 21 unless the woman has had a previous abnormal Pap smear. Women in their 20's should have a Pap smear every two years (assuming prior Pap smears have been normal). Women age 30 and older who have had three consecutive normal Pap smears should have a Pap smear every three years. Women who ...

The American College of Obstetricians and Gynecologists (ACOG)

- Pap Smear Screening begins at age 21 regardless of when sexual activity starts.

Adolescents/young women 20 and below are not recommended to have a Pap test or HPV testing. Pap screening may end at age 65 if the Pap history is unremarkable and the patient is low risk. · Screening recommended every 3 years for women 21-29. Women 30-65 and ...

Pap Smear Referral Guideline

The guidelines generally advise a reduction in the number of tests women get over their lifetime to better ensure that they receive the benefits of testing while minimizing the harms, and include a preference for co-testing using the Pap test and HPV test for women age 30 to 65.

Guidelines - ASCCP

Once 30 years old, the ACOG recommends the co-testing of HPV primary test and Pap test every five years until they reach the age of 65. They can also opt to undergo only a Pap test every three years.
