members into action; and then determining and taking appropriate action. This method uses the community's own assets and resources as the basis for development; it empowers the people of the community by encouraging them t

Asset-based community development - Wikipedia

Asset Based Community Development (ABCD) is an approach to sustainable community-driven development. Beyond the mobilisation of a particular community, it is concerned with how to link micro-assets to the macro-environment. Asset Based Community Development's premise is that communities can drive the development process themselves by identifying and mobilizing existing, but often unrecognised assets.
