Astronomy 115-1 - Mid-Term Sample Answers. 1. One of the most serious problems for the study of astrobiology is in defining what we mean by "life" in a way that is useful, but not overly restrictive. One consequence of this is that we often use the nature of life on Earth as a model. One fundamental aspect of terrestrial life is that our biochemistry operates in aqueous solution.

Astronomy 115-1 - Midterm Sample Answers

Study Guide Beginning Astronomy . You must know these things: Earth's diameter is about 8000 miles Moon's distance is about 60 Earth radii (240,000 miles) Average distance of Earth to Sun is about 93 million miles (150 million km) One light-year is how far light travels in a vacuum
