Studies in Nursing

Clinical decision-making (CDM) is a dynamic activity in which the nurse builds a case in which hypotheses are accepted or rejected based on collected data, better defined by Barrows & Pickell (cited in Robinson 2002, p. 1) 'Clinical decision making is the formulation and revision of hypotheses throughout a patient encounter'

ON CLINICAL
DECISION MAKING ...

A case study is a special type of thought leadership content that tells a story. Case studies are narratives that feature real world situations or uses of products or services to demonstrate their value. A well written case study will follow a customer as they define a problem, determine a solution,
