Bank pullback is fueling emerging markets direct lending. Direct lending is seeing a surge of fundraising appetite across various emerging markets. A recent report from the Emerging Markets Private Equity Association (EMPEA) showed that fundraising for direct lending in 2018 topped 2017's numbers by more than \$1 billion.

Bank pullback is fueling emerging markets direct lending

LONDON – Central banking in emerging markets has undergone a quiet revolution during the COVID-19 pandemic. Unlike in past crises, they have been able to mimic what central banks in advanced economies have been implementing: counter-cyclical policies with quantitative easing (QE), local-currency asset purchases, interest-rate cuts, and monetization of government deficits.
