This book provides a good overview of the area of International Taxation--but only an overview. It will not help you on detailed, complex issues in International Tax. However, using this book will help you understand the general framework for U.S. International Tax. I did not give this book 5 stars because it needs more examples.

International taxation is the study or determination of tax on a person or business subject to the tax laws of different countries, or the international aspects of an individual country's tax laws as the case may be. Governments usually limit the scope of their income taxation in some manner territorially or provide for offsets to taxation relating to extraterritorial income.
