### Policy and Theory of International Trade - Table of Contents

Trade is the concept of exchanging goods and services between two people or entities. International trade is then the concept of this exchange between people or entities in two different countries. People or entities trade because they believe that they benefit from the exchange. They may need or want the goods or services.

### What Is International Trade Theory? - GitHub Pages

International trade Scope and methodology. The economic theory of international trade differs from the remainder of economic theory mainly because of the comparatively limited international mobility of the capital and labour. In that respect, it would appear to differ in degree rather than in principle from the trade between remote regions in one country.

### International economics - Wikipedia

His research focuses on two areas: international trade policy and behavioral economics. With respect to behavior, he examines why people choose to do things that many observers view as irrational. Examples include addiction to cigarettes, cyclical dieting, and anorexia.
