The solutions manual is called upon, and once more it fails to have the selected problem listed. Stumped the students all look through the manual and begin to pick out the problems that the author actually chose to work out, and work that way. This is the method the students must use for the rest of the semester. See, wasn't that a lovely story?

What to do when the second card is THE SAME as the first? Two different groups will deal with this differently: If your student number ends with an EVEN digit, then you ADD 10 points if the cards are the same. If your student number ends with an ODD digit, then you SUBTRACT 10 points if the cards are the same.
