Film & Video Production Jobs | Find Work | ProductionHUB

When a television station wants to broadcast a signal to your TV, or when your VCR wants to display the movie on a video tape on your TV, the signal needs to mesh with the electronics controlling the beam so that the TV can accurately paint the picture that the TV station or VCR sends. The TV station or VCR therefore sends a well-known signal

First Electronic Television. The credit to who invented the television as we know it today, an electronic model, was a bit of a power struggle. One inventor had the patent, but his television's design wasn't quite there yet, while the other had a fully working television but only applied for a patent later.
